Latin America – Learning Target #4 Assessment – ESSAY

***Learning Target #4** – I can explain how the human characteristics of Latin America are the same and different.*

1. In class we will watch several videos about families in Latin America. As you watch those videos, please complete the chart on the back of this sheet which compares the culture of Mexico to the culture of other Latin America countries. You may use additional sheets of notebook paper if needed or desired.

2. After watching the videos, choose one country that you feel has the most interesting way of life (in other words, the most interesting culture!) and write about the culture of that country. Be sure to include three reasons for why you choose that country and explain why those reasons are important to you. The reasons should be listed on the chart on the back of this sheet.
