

Monsoon Asia Challenge 4

1

What type of *vegetation* is found in Bangladesh?
How might *climate* help to explain why?

Monsoon Asia Challenge 4

2

In which country do the people use their land for almost nothing but nomadic herding? How does the *vegetation* zone help to explain why?

Monsoon Asia Challenge 4

3

On which two Indonesian islands is *forestry* one use of the land? How does the *vegetation* zone there help to explain why people work in forestry?

Monsoon Asia Challenge 4

4

Compare the *population densities* in the western and eastern halves of China. How do *physical features* and *climate* help to explain why they are so different?

Monsoon Asia Challenge 4

5

Where in Monsoon Asia does this person live?
Why do you think so?
“The coastal areas of my country have over 250 people per square mile. Like many people here, I am a *subsistence farmer*. My cousin works for a *manufacturing* plant in a city. My country is one of diversity. The *elevation* ranges from sea level to over 10,000 feet. Parts of my country are dry all year round. Other parts are tropical with wet and dry seasons.”

Monsoon Asia Challenge 4

6

For a travel guide of my country, I write:

- Our *climate* is pleasant—not too dry nor too wet, like some parts of Monsoon Asia.
- Our capital city of *over 8 million people* offers shopping, museums, and entertainment.
- We have *different types of forests* to enjoy.

I also include a map of the islands that make up my country. Which country am I writing about?
Why do you think so?
